Dear Sir:

06209

I am writing to you to inform you of the wrongful events leading to me having emergency surgery, to show the lack and neglect of care and professionalism of the medical staff here, I told a CO on duty of my housing unit on Sept 15 2007 that I was in real pain and needed to see medical, he called and sent me down, when I told nurse Michelle Ward that I was in serious pain she did not seem to ~~care~~ or want to be bothered, she took my vitals gave me some medication and sent me back to my unit up stairs.

on Sept 16 2007 still in serious pain returned to medical and saw nurse Charles and expressed my pain once again. He then took my vitals gave me some medication and attempted to send me back up stairs to my cell, when thank to God a sergeant from the 12 to 8 shift saw the serious nature of my pain, the sergeant told nurse Charles if you see a man in as much pain as Jesus is in with tears in his eyes get him help, it took a sergeant with no medical knowledge that I know of to get a medical supposed professional to get me the help I needed, after the medical staff realized the seriousness of my medical problem I was rushed to B.B. Hospital where I received a cat scan and was rushed to emergency surgery to have my gall bladder removed.

Sincerely  
David DeJesus Sr
